this compendium of everything that's new in cars and trucks is packed with feedback from Canadian drivers, insider tips, internal service bulletins, and confidential memos to help the consumer select what's safe, reliable, and fuel frugal.

As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality control problems, Lemon Aid guides steer the confused and anxious buyer through the economic meltdown. Unlike any other car and truck books on the market, Phil Edmonston, Canada's automotive dr, Phil, for more than 40 years, pulls no punches in this all-new guide. He says Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are pr gimmicks. Diesel and natural gas are the future. Be wary of zombie vehicles. Jaguar, Land Rover, Saab, and Volvo Mercedes-Benz rich cars, poor quality. There's only one Saturn you should buy: Toyota. Enough apologies when you mess up. Fess up.

Zacarías León's thesis describes the development and validation of analytical methods to estimate the processes set in motion by percutaneous absorption of UV filters in sunscreen cosmetic products. León describes these methods in both in vitro and non-invasive in vivo methodologies. Currently, dermatologists recommend the use of sunscreen products not only under conditions of extreme exposure to the sun but also in daily situations. However, the chemical compounds in these products contain may lead to undesired processes and cause induced toxicity, estrogenic effects, and endocrine activity. León establishes methods to investigate these effects and provides valuable information on the undesired side effects associated with the use of UV filters found in sunscreen products. The work in this thesis has led to a number of publications in renowned analytical chemistry journals.
