this volume is a result of the need to reflect upon portugal s position from the viewpoint of the literary assets imported and exported through translation it brings together a number of scholars working in the field of translation studies directly concerned with the portuguese cultural system in order to analyse this question from various theoretical perspectives and from case studies of translation flows and movements in portuguese culture by translating portugal back and forth the articles discuss issues such as how can one draw the borderline between a peripheral and a semi peripheral system is this borderline useful or necessary how peripheral is the portuguese cultural system as far as translation transfers are concerned how stable or pacific has this positioning been does the economic and historical perception of portugal as peripheral entail that from the viewpoint of translation it would behave similarly by addressing some of these questions and as shown by the second subtitle essays in honour of joão ferreira duarte the volume pays homage to one of the most prominent translation studies scholars in portugal who has extensively reflected on the binary discourse on translation its metaphors and images

winner of the 2005 klinger book award presented by the society for economic botany florida ethnobotany provides a cross cultural examination of how the states native plants have been used by its various peoples this compilation includes common names of plants in their historical sequence weaving together what was formerly esoteri

amid the growing calls for a turn towards sustainable agriculture this book puts forth and discusses the concept of agrarian extractivism to help us identify and expose the predatory extractivist features of dominant agricultural development models the concept goes beyond the more apparent features of monocultures and raw material exports to examine the inherent logic and underlying workings of a model based on the appropriation of an ever growing range of commodified and non commodified human and non human nature in an extractivist fashion such a process erodes the autonomy of resourcedependent working people dispossesses the rural poor exhausts and expropriates nature and concentrates value in a few hands as a result of the unquenchable drive for profit by big business in many instances such extractivist dynamics are subsidized and or directly supported by the state while also dependent

on the unpaid productive and reproductive labour of women children and elders exacerbating unequal class gender and generational relations rather than a one size fits all definition of agrarian extractivism this collection points to the diversity of extractivist features of corporate led external input dependent plantation agriculture across distinct socio ecological formations in latin america this timely challenge to the destructive dominant models of agricultural development will interest scholars activists researchers and students from across the fields of critical development studies rural studies environmental and sustainability studies and latin american studies among others

the book presents an overview and historic perspectives of a novel scientific field coming of age today coastal and ocean management it covers diverse and changing issues ranging from conflict resolution to governance and ethical political imperatives natural disasters and climate change culminating in coastal and ocean typologies the basis for a future theory of coasts and oceans eighteen chapters written by two main authors in cooperation with international experts review 25 years of research the authors address challenges to society related to global change issues that have been generated by human activity in both temperate sweden germany and the united states and tropical regions brazil indonesia ultimately the book documents the maturation of a field and responds to changing societal needs and scientific outlooks it gathers recent analyses along with important earlier research with a foreword by biliana cicin sain and richard delaney globally renowned as coastal and ocean experts in theory and practice its broad approach makes the book a must read for graduate and postgraduate students as well as coastal management and marine spatial planning practitioners and for researchers in the fields of geography anthropology history of science human and social ecology and environmental and development studies

manuel and francisco aires mateus are adamant when they say it is very interesting to work outside their home country of portugal but it is especially stimulating to return in interviews however they have often pointed to the problems they are faced with when working in portugal lack of planning overly restrictive regulations very limited market for experimenting with new materials and systems and vanishing craftsmanship yet they are positive that these challenges contribute to architectures continued improvement this guidebook is both a reference to the numerous built works in portugal by aires mateus and an itinerary spanning 21 cities from north to south publicaciones arquitectura y arte

this collection of essays prepared by an international team of scholars and translators examines the ways in which henry james was translated published and reviewed in europe

one of the most significant portuguese artists alive today pedro cabrita reis has produced a complex oeuvre encompassing a variety of media his paintings sculptures and site specific installations are primarily composed of found and manufactured objects often employing common simple materials his work touches on issues of space architecture and memory with a suggestive power of association that goes beyond the visual to the level of metaphor bringing together the viewer s subjective conscience with the greater conscience of everyday life cabrita reis s artworks induce a reconstruction of individual and collective memory creating an expansion of meaning and proposing a literal and figurative reconstruction of the world this lavishly illustrated publication provides a comprehensive overview of the artist s work from the mid 1980s to the present and includes writings by the artist as well as bibliography
